

Storage

FOR INDUSTRIAL

VISION FROM MAINTENANCE MANAGER BRINGS ON BETTER ORGANIZATION AND INCREASE IN WORK SPACE

- WHAT:** Nabisco Brands, Inc., St. Louis, MO.
- PROBLEM:** Maintenance parts, replacement parts and repair items were stored in cardboard boxes in three separate locations throughout the facility, creating inefficient retrieval and frequent duplication of parts.
- OBJECTIVE:** To increase efficiency and save money in the parts inventory.
- SOLUTION:** Consolidation of parts using high-density mobile storage.
- PRODUCT:** Spacesaver Manual Storage Systems.

UNIQUE FEATURES

- Storage system now allows better organization in plant's maintenance parts crib.
- New shelving units allow for easier retrieval of parts and miscellaneous storage items.
- Inventory is in one storage, increasing the efficiency and work space capacity in other areas throughout the plant.

BENEFITS

- Parts were consolidated using mobile storage and created new office space.
- New office space was created in the available space.
- Consolidation has saved both time and money.

The Maintenance Department at Nabisco Brands' egg products plant now enjoys better organization in its maintenance parts crib thanks to a mobile storage system from Spacesaver.
